Insider Tips To Make Your Business Run Faster, Easier And More Profitably

4 WAYS TO TAKE CONTROL OF YOUR SCHEDULE

Every day is busy for those who lead or own a business, but you must stay organized and stick to your schedule to ensure everything gets completed. This is a difficult task for many business leaders, though. Little distractions can cause us to procrastinate and get behind on our work, making for long workdays. If you find yourself struggling to stay on schedule, give some of the following tips a try.

- Set deadlines for every important task.
- Turn off app notifications on your phone so your attention stays on your work.
- Delegate tasks to others if you feel overwhelmed.
- Keep your workspace clean.

AI WANTS TO HELP US SHOP

Are We Okay With It?

You've probably noticed the little elf helping you around retail stores this year. No, it's not the teenager at the mall in red-and-white stockings and a felt green hat. It's AI.

Log in to Amazon, and you'll see suggested products like winter decorations, novels or toy recommendations for kids. Add that remote-controlled car into your cart for your nephew, and you'll get recommendations for batteries and gift wrapping, too. This is no accident – generative AI uses your past purchases and recent searches to curate this personalized display. At the end of your shopping affair, you can share your experience, which is data fodder for AI to learn and improve your next shopping venture.

One in six shoppers use generative AI to inspire shopping decisions, according to a 2023 Salesforce survey. However, data by SAP Emarsys report that barely more than half of consumers feel it positively impacts their online shopping experience. What is

generative AI, and what does it mean for our holiday shopping – and our privacy?

What Is Generative AI?

Generative AI takes data (provided by humans) to create something new, like music, text, images or even personal shopping recommendations. Beyond simply following commands, generative AI can study existing data on the Internet to “think up” entirely new content.

How AI Is Used To Shop

Imagine hiring a personal shopper who also happens to have your entire Internet shopping history – searches, views, shopping carts, purchases and online interactions (including third-party data) – PLUS every product review and insight available online, handy in second. Thanks to this nearly endless supply of data, generative AI seeks to “help” consumers shop in multiple ways, including:

continued on page 2...

...continued from cover

Creating A (Creepily) Personalized Shopping Experience:

Generative AI can curate personalized shopping lists or recommend products based on an individual's preferences by analyzing past behaviors and predicting future interests.

Providing Chatbots And Customer Support:

Generative AI-driven chatbots can assist customers with queries, recommend products or help troubleshoot problems, often in a more sophisticated and human-like manner than traditional chatbots.

Improving Fraud Detection: AI can recognize and learn scammer behaviors using its predictive and deep learning capabilities. This helps payment platforms pinpoint problem purchases without impacting legitimate ones.

Cons And Privacy Concerns

AI is only as good as its data. It's not perfect, and there are some ethical and privacy concerns to be aware of, like:

Data Collection: For generative AI to offer a personalized experience, it requires data – lots of it. This could include shopping habits, product views, search questions, etc. The question is: How much data on consumers is too much, and where is it stored?

Potential For Misuse: With the ability to

generate realistic content, there is potential for misrepresentation or misuse, such as creating fake product reviews.

Implications For Business Owners: Opportunities And Responsibilities

There are several benefits for business owners who opt for AI to improve their customer's experience. Personalized recommendations lead to longer site visits and potentially higher conversion rates. Automation via AI can streamline operations, particularly in customer support and product visualization.

However, you also have a responsibility to your customer's privacy. Businesses must ensure they're transparent about the data they collect and how they use it. This includes providing clear opt-in and opt-out options for consumers. Additionally, with the increased collection of consumer data, businesses have a heightened responsibility to protect that data from breaches and unauthorized access.

Be A Smart AI Shopper

It's crucial that you understand the terms of service and privacy policies of online platforms. Know what data you're sharing and with whom. Periodically check and manage the data permissions you've granted to different e-commerce platforms, and always secure your accounts with multifactor authentication.

Enjoy the benefits of AI recommendations, but diversify your sources of information and your

shopping platforms. For example, you'll want to verify AI-powered recommendations on other product review websites like Wirecutter or Consumer Reports.

AI Chatbot Or No, Demand Excellent Customer Service

Even though a growing number of people are happy to interact with and benefit from generative AI, most people still expect excellent customer service from a human, according to Salesforce. As online platforms harness data to tailor experiences and predict behaviors, consumers should remember they have the power to drive the standards. By voicing expectations and preferences, shoppers ensure businesses prioritize genuine human interaction and responsiveness alongside their digital innovations. After all, even in a world dominated by algorithms, genuine customer service remains at the heart of a truly exceptional shopping experience!

FREE EXECUTIVE REPORT:

7 Critical IT Security Protections EVERY Business Must Have In Place NOW To Avoid Cyber Attacks, Data Breach Lawsuits, Bank Fraud and Compliance Penalties

In This Report, You'll Discover:

- The scary risks of mobile and cloud computing – and 7 critical policies, procedures and protections EVERY business must have in place NOW to protect themselves.
- The #1 security threat to your business that anti-virus, firewalls and other security protocols are defenseless to.
- A SHOCKING truth about bank fraud most businesses don't know about that could (literally) wipe out your bank account.
- Why firewalls and anti-virus software give you a false sense of security – and what it REALLY takes to protect your organization against new threats and today's sophisticated cybercrime rings.

CARTOON OF THE MONTH

TECH CONNECT VIDEO SERIES:

Online Banking: Tips And Tricks To Keep Your Money Safe

Online banking is widely used by business people and it's easy to see why. It's simple to use, and offers a convenient way to make deposits, transfer funds, pay bills, and review your transactions, all without standing in line at a bank. And while there are lots of benefits, there are also a fair share of drawbacks. The biggest concern, as usual, is security.

Watch this video NOW to discover how you can secure your business, and your bank account, from cybercriminals working diligently to steal your hard earned cash.

This video provides six best practices around banking online safely. You can apply these tips and tricks to your business to reduce your chances of a security breach and financial loss. To watch, go to <https://bit.ly/3TcBqw9>.

SHINY NEW GADGET OF THE MONTH

Infinity Orb Levitating Speaker

This is not your mom's Bluetooth speaker. The Infinity Orb Levitating Speaker is a musical spectacle for lovers of design, sound and sci-fi. The speaker actually levitates and rotates above its base, creating a futuristic ambience in any space. It provides 360 degrees of clear audio you can control from your phone.

Beyond its acoustic capabilities, the Infinity Orb's gravity-defying feature is a real conversation starter! Whether for personal indulgence or a gift for a friend with a taste for the unconventional, the Infinity Orb is where technology and artistry meet the future. The Gadget Nerds gave it 8.5/10, and it earns 4.3 stars on Amazon.

MONTHLY CHARITY DONATION

Alzheimer Society

This month we will be donating to the Alzheimer Society of Canada.

As a prominent nationwide health charity, the Alzheimer Society of Canada plays a crucial role in supporting individuals living with various forms of dementia, including Alzheimer's disease, along with providing assistance to their caregivers and families.

With a strong presence in communities across Canada, the Society is actively involved in offering essential programs and support services. Additionally, they tirelessly fundraise to propel vital research forward, advocate for policy changes, and work towards increasing public awareness about dementia-related issues.

If you want to contribute to the Alzheimer Society of Canada, we would love your help! Email: info@connectability.com or call (416) 966-3306.

STORIES THAT STICK

How Storytelling Can Captivate Customers, Influence Audiences And Transform Your Business

"People want a purpose. If you don't give them one, they'll make up their own. Tell your stories first, otherwise, someone might tell them for you, and you might not like their version."

— Kindra Hall

Whether at the dinner table, around the fireplace or while watching our favorite Netflix series, we all love a good story. In her book, *Stories That Stick*, Kindra Hall breaks down four types of storytelling and how businesses can use them to communicate better and drive more engagement. Although the book is written primarily for business owners and entrepreneurs, it's easily applicable to HR and marketing leaders who want to get started on a path to more effective messaging.

HOLIDAY GIFT GUIDE

Finding the perfect last-minute gift without compromising quality can be challenging. Here are five of our favorite tech-inspired gifts that are bound to leave an impression!

Aura Digital Photo Frame

Revamp an office or home with memories using this sleek digital frame. Users share photos from their phones directly to the frame over WiFi, no matter where they are. It's super simple to set up (gift givers can even set it up remotely so it's ready to go when it's opened), and the app includes free, unlimited photo storage. It's like a personal digital art gallery!

eQuinox 2 Telescope For Urban Astronomers

This telescope is perfect for hobby astronomers, bringing users closer than ever to the night sky, even in brightly lit cityscapes. It may not be cheap, but the ability to make deep-sky observations with no astronomy experience is priceless. Users can also collaborate on research with professional scientists via a Unistellar Citizen Astronomer program. It's a stellar gift if you ask us!

Electric Skates By AtmosGear

Whether commuting or just out for a leisurely ride, users effortlessly roll up to 15 mph (20 mph with the Pro Pack) on these sleek electrified in-line skates. Riders control the speed with pocket-sized remote: speed up, slow down, brake – it's all at your fingertips. The coolest part? They recharge while you're skating. It's like the future on wheels!

Hasbro Selfie Series Customizable Action Figures

Make someone's childhood dream of being an action hero come true with the Hasbro Selfie Series that allows you to create a 6-inch super mini-me for only \$60. Put a new face on G.I. Joe (or Jane), "Power Rangers," "Ghostbusters," Marvel or "Star Wars" characters, and your friend or family member can become a character in their favorite story!

Mebak 3 Massage Gun: A Quiet And Effective Massage

You know those pesky knots and sore spots we get after working out (or, you know, trying the latest viral TikTok dance or sleeping in the wrong position)? This gadget is a champ at sorting them out, especially on the shoulders and legs. It's like a mini-spa in your hand. The best part? It's practically whisper-quiet! No more feeling like you're in a construction zone while trying to relax. It's also handy and great for tossing in a bag when heading out for a round of golf or traveling. It's a fantastic little addition for anyone looking to expand their self-care toolkit.

SKIP THE DETOX:

How To Be Well In The Digital Age

Whenever we feel irritable, sad or anxious after scrolling on social media, we often prescribe ourselves a weeklong digital detox. However, new research suggests detoxing isn't as effective as we thought.

In 2020, collaborative research from Oxford University found "no evidence to suggest abstaining from social media has a positive effect on an individual's well-being." Dr. Hannah Rose from Ness Labs says that to be well in the digital age, we need to be mindful of our technology use so it's both

healthy and realistic. She suggests we become active participants in social media (not passive scrollers), make small changes to reduce screen time, choose healthy sources of information, increase awareness through journaling and make deeper connections with people on social media.

When we're well, our work is well, and our businesses are well, too.
